About Punjabi University

Punjabi University, Patiala, established on April 30, 1962 is amongst the premier institutions of higher learning. The University has been awarded "A" grade by NAAC amongst 350 universities in the country. The institution has emerged as a key institution for imparting teaching and carrying out research in life sciences, physical sciences, medicine, engineering and technology, business studies, law, social sciences, languages, education, information sciences, and arts and culture.. The mission of Punjabi University is to pursuit excellence and quality in higher education and to produce committed students imbued with critical thinking, and scientific temper. The University has been recognized by various research funding agencies for its research activities & also has collaborations with foreign institutions.

About Physiotherapy Department

"*Vidya Vichari Ta Parupkari*". This is the motto of the Punjabi University, Patiala and it translates into, "True learning induces in the mind, service to mankind". Based on this spiritual ideology, the Department of Physiotherapy strives to provide excellence in service delivery to mankind and imbibe good values in the students. The Department is one of the youngest departments in the University which came into its independent existence in 2008. It is one of the few departments in the country offering Doctor of Philosophy (Ph.D) degree in Physiotherapy. In addition, it is running both Bachelor's (BPT) and Master's (MPT) programs. The Department has the highest qualified Physiotherapy professionals in the country in its faculty with six teaching and seven clinical faculty members. The six of the faculty members have Doctor of Philosophy (Ph.D) degree. The Department is running specialized Physiotherapy OPDs for musculoskeletal, neurological, sports and geriatric conditions to enhance clinical skills of students. Musculoskeletal conditions like low back pain, neck pain, frozen shoulder, osteoarthritis etc.; neurological conditions such as paralysis, stroke, head injuries and cerebral palsy; Cardiovascular and respiratory conditions like COPD, post cardiac surgery rehabilitation etc; Conditions related to aging population such as balance impairments, diabetes mellitus, parkinsonism etc are treated with utmost care and compassion in the various departmental OPDs. The Department also has collaborations with various renowned hospitals in the city of Patiala.
